Tips on leaving your comfort zone from Paola Alonzo

WT College Assistance
Migrant Program
WEST TEXAS A&M UNIVERSITY™

Don't be afraid to take risks and get out of your comfort zone. Many times opportunities present themselves, and you may not want to take them because you don't feel qualified, you're scared of starting over, etc. Challenge yourself to say "yes" more, regardless of what you think the outcome may be. Not only will this make you feel more confident, but it will also increase your perseverance. A little nervousness or fear is good because it means you care, but don't let it stop you from doing amazing things, let it guide you. Remember, there is no room for growth without discomfort.

5 tips to be successful at WT (from Xochilt Cardoza, CAMP Alumni '22):

1. Studying is important, but so is your health.
2. Join your classes GroupMe! It's a great way to network.
3. Don't leave your assignment until the last minute.
4. Don't be afraid to speak or ask questions; professors love feedback.
5. Ask for help! There are several resources on campus to help you succeed.
