

34.07.99.W1/BF Crisis Management
Approved January 6, 2002
Supplements System Policy 34.07

1. West Texas A&M University will maintain a comprehensive crisis management plan, which will be focused first on the protection of human life and health and then on the protection and preservation of University property and resources. We will cooperate with and assist federal, state and local governments and other relief agencies in disaster relief efforts, when possible. The University President or Vice President for Business and Finance or their appointees may allocate facilities, equipment, and personnel to assist with crisis management relief in the event of disasters.
2. The WTAMU crisis management plan will address internal and external communications including required communications with SAGO, the Chancellor and the Board of Regents.
3. The Crisis Management Committee will review, update and make recommendations for changes to the plan on a bi-annual basis. The University President must approve all changes to the plan.
